The Gift by Diana Rose...

December 19, 2008

Mary Magdalene on this Holy Day and Time of Winter Solstice:

A New Ceremony of Meditation to Honor this Holy Day Time

This message came through in the early morning of Friday, December 19, 2008, for the Radio Show of the day on Contact Talk Radio (www.ContactTalkRadio.com/hosts/dianarose.html) entitled: The Mary Magdalene Show. This was the message – but in the recording of the show much more came through to both myself and Sharon Rose (www.walktheearthasalivingmaster.com), the only guest that day.

This was slightly different as I might ordinarily transcribe one of these automatic writing pieces, as the message was a direction of what was to be done during the show, and so I include those directions and some symbols given as well:

December 19, 2008

☞ **First bring in all of the Voices of The Gift to understand us and this Holy Day.**

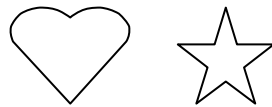

- The Voices of The Gift, as given in the book (www.dianarosesthegift.com) are:
 - Isis
 - Mary Magdalene
 - The Virgin Guadalupe & The Virgin Mary, The Aztec Goddess, Tonatzin
 - The Chinese Goddess of Compassion, Kwan Yin (Karuna)
 - Saraswati
 - The Earth
 - The feminine life-giving Voices of Sun and Moon
 - The Triad Being, Gray Mother Lela
 - The Goddess Diana
 - The Interdimensional Teacher, Oron
 - The Ancient Grandmother Fertility Lineages, the Hathor Goddess, the Blue River of Star Birth.
 - The Beloved.
- [Then 3 symbols were shown to me--it looks like a being with cow's horns, 3 of them; perhaps the 3 Wise Men but given in the symbol of 3 female Cows...]

Meditation

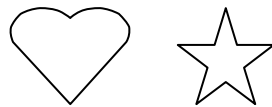

(I was told to do a sound toning meditation at this time of bringing in the names of each of the Voices of the book if possible.)

Celebrating the Birth of the Beloved.

- ❧ **Of Yeshua, think of him in these symbols: The stars in his eyes and the love in his heart – the Star and the Heart.**

- ❧ **You place symbols of Stars on your Trees of Life during this Time – a time of ancient Winter celebration. Put also the Heart of Love on the boughs of your Trees of Life to celebrate this Time and this Birth.** It will remind you to bring into these days the Love that is in every Birth and meant to be celebrated with joy in these Holy Days. It will also honor again the Love in the sacred Earth solstice celebrations of all of the Time of the Human Being under the boughs of the Tree of Life.

- ❧ **The name of the book that was given is *The Gift*. Think on the meaning.**

- **The symbol "Gift" carries ancient alchemy**, especially powerful in this Time of Holy Days.
- **In giving is great power evoked, and many portals may be opened.**
- And in this time of remembering: **Remember that Birth is the Greatest Gift.**

- ❧ **It does not matter what your religions or scientific beliefs.** It does not matter what the story is of the historic times you associate with these Holy Days, or the archaeologies or histories that you believe:

**What matters is the drama
and the meaning we make in our own time.**

- ❧ **We have always had the capability to create this Holy Time as a new celebration each time we create together.**

- ❧ **We co-create this reality and its dramas.** You are being born and transmuted into a Life Form that knows its own powers of co-creation in this union with each other, both male and female and those who are of both spirits.

A Ceremony of Meditation for this Holy Day Time

[This Ceremony of Meditation was given and the spirit that seemed to be in it was both the spirit of Mary Magdalene and her Beloved Yeshua. It was given as a meditation that can be done by anyone anywhere regardless of religious or cultural belief, especially in groups as they begin to give and receive gifts together. After each instruction, it was said to meditate upon the thought, and I was instructed to do a sound toning after each. You may want to meditate in silence or with sound that you make or recorded sound after each instruction.]

☞ **1. The first gift to each other in this co-creation of a new Earth is GRATITUDE.**

Pause now and think of the gratitude you have for your life on this Earth at this time, and for the life of the mothering Earth -- rather than focusing on what you have lost or fear losing now, focus on GRATITUDE for each other, each one – and for what you have and have given to each other and received from each other in every kind word.

- Meditation

☞ **2. Focus on giving first Love to each one present -- which you always have in you to give even if you believe you have no resources for a gift to give at all, always you have this gift to give.**

It is the fabric of your being and one of the greatest joys of life on Earth, to be able to give the gift of Love as a Human Being. [It was said to capitalize the words Human Being and to begin to think of yourself, to celebrate yourself now always in this way on Earth: **Human Being** – a noble and sacred being.]

- Meditation

☞ **3. Now focus on giving this Love to all Human Beings on the Earth. Go deeper into a special state of Love.** Give Love to all beings on the planet as they would want to be sent love, and in honor of their choice to receive Love from you, even those you think of as adversaries, as enemies -- for they are your sister and brother Human Beings and you do not know them all yet or understand what it is like to walk in their shoes. **If you would change things upon the Earth: First Love all Human Beings of the Earth, and you will come to know them.**

- Meditation

☞ **4. Now focus on giving special Love and gratitude to the Earth,** to all of the beautiful animals and plants, to the tiniest of creatures and to the greatest stone beings, to the waters of the oceans and the waters of your sensual bodies; to the air you breathe, to skies of blue and skies of deepest space; to the stars and planets that you see, that guide you into peace, into the beauty and rest and healing of this Great Time.

- Meditation

☞ **5. And now give Love to those you most Love and cherish, wherever they are,** even if they have passed or if they are soon to be born. If they have passed or if there is a baby soon to be born, they may especially take joy in your sending this Love to them at this time. Learn to celebrate your Holy Days with all beings whom you Love in your heart, beings and lineages of the past and of the future, including *you* in all your pasts and you in all your futures.

- Meditation

☞ **6. And now give Love to all beings in the Universe**, all life in all spaces and places yet unknown to you for they are listening now. And open the doorway for the Universes of beings to give you Love in return, for they will. Listen for their voices and hearts at this special Time, for something new is happening. Reach for new understanding that is of the Earth and beyond the Earth.

- Meditation

☞ **7. And now, regardless of your beliefs, give Love to that which is Divine or the Miracle of the Universe**, to that which is Divine and a Miracle in you, both the Divine Mother and the Diving Father, the Divine Sister and the Divine Brother – this Miracle that of Live that is in you. And listen with a full heart and feel as that Love is returned to honor you especially in this Time.

- Meditation

[And then Mary continued:]

☞ **It would be nice for this to be done in celebration of the Holy Days. And of this Time, especially this year of new birth and transformation on Earth.** Truly new stars are being born in your eyes, beloved ones. This Time will bring you together to know each other once again – and in new ways.

☞ **You are a great Gift to each other and that is what you are to realize, to seek that Gift in new knowing of each other every day. Let me be a loving introducer, reminding you to come together to know each other now as new Human Beings at this time of the Celebration of Birth.**

☞ **Think to yourself any time you see another Human Being: This person before me is a great Gift to me. And think: Why are they a Gift to me?** Why have I been given the wonderful opportunity to know them and to wonder at that their presence, this great offering to me? And this is how you are to come to know each other again in Love: **To see in each and every Human Being you meet: A GIFT.**

☞ **If you but understood the Gift that they all are, you could not contain yourself and would run up and put your arms around them and hug them to you with all your might, to fully take into you this great Gift of them. And then they would see the great Gift that you are, and in their eyes you will see yourself, your beauty and life and Love – that You Are The Gift of this Holy Day!**

☞ **And then you will begin to make each day a Holy Day and to begin it with Love and Gratitude for every being, every star and every planet, for the Earth Mother, for the air you breathe and the life you live and the Love you have to give on this Day.**

The Gift of the Seeds of Forgiveness...

- ❧ **Make this Holy Day always one of forgiving.** Forever-giving and giving Love in advance for reasons you do not even know.
- ❧ **Think of this as your daily planting of seeds of forgiveness.** And let this planting of seeds begin now at this time of celebration of Birth.
- ❧ **If in your beliefs you believe that you have been forgiven your wrong doings, then spend some time each day understanding better how to forgive those you believe have done wrong things to you, until you are able to become pure love that is always forgiving.**
- ❧ **And it is these seeds of forgiveness that will grow a new kind of Human Being on Earth.**

Making Love on this Holy Day so that All Beings Everywhere will Feel this Love

- ❧ **And on this Holy Day, with the one you love in a special way, your loving partner, make love to each other and rejoice and celebrate together a rebirth of your Love on this day of celebrating Birth.**
- ❧ **And somewhere you will make New Life under a bright new Star; and in your heart will grow a new Love.**
- ❧ **And all beings everywhere will feel your new Love growing across all Time and Space.**
- ❧ **And make with your Love a new Holy Day for all Time...**
